

A young child with dark skin and short hair, wearing a pink tank top, is leaning over a public water tap. The child is drinking water from their hands, which are cupped under the running water. The background is a blurred outdoor setting with greenery and buildings. The image is overlaid with a yellow and red graphic at the bottom.

Creating a
healthier world
for future generations

**THE AURUM
INSTITUTE**

Aurum is an African Health Impact Organisation advancing health science and innovation.

Mission

Aurum generates evidence for policy and translates policy into practice to positively impact the health of communities globally.

Our Impact

1 500 000 Screened for TB

15 046 871
people tested for HIV

412 702 COVID vaccines
administered to date

Over 13 million Patient courses
of **rifapentine - based TB**
preventive treatments purchased
across **78 countries**.

140 Countries have access
to 3HP Worldwide through the
IMPAACT4TB consortium led
by Aurum

Evidence to Policy. Policy to Practice.

OUR WORK

Clinical Research

- Basic science
- Multi-site clinical trials (drugs, vaccines, regimens)
- Biorepository
- Clinical laboratory

Implementation Research

- Epidemiology & geomapping
- Real world evidence
- Multi-site implementation studies

Health Systems Strengthening

- Quality improvement
- Systems improvement
- Health information systems
- Market shaping

Health Implementation

- Major development intervention programs
- Targeted intervention projects
- Technical assistance
- Infrastructural development
